SUPERINTENDENT LATHROP. The Decision Based on the Report of Spe.

the Decision Mared on the Menort of Oper-cial Commissioner A. E. Brewn, Who Wes Appointed by the Governor to In-ventigate Churgen Against Geo, Lathrop. ALBANY, Oct. 9.-The charges which have been made during the past two years against Gen. Austin Lathrop, as Superintenuent of State Prisons, were dismissed to-day by Gov. Morton. The Governor has thus disposed of a question which has been before the Legislature and himself for upward of a year and a half. The charges were originally made against Gen. Lathrop in February, 1805, and a special committee of the Senate was appointed to investigate them. This committee reported, and its findinge were transmitted to Gov. Morton. The Governor refused to act thereon because no apecific charges accompanied the report.
In September, 1895, ex-Congressman Weaver

and former Sheriff White of Plattsburgh, presented charges to Gov. Morton against Gen. Lathrop, which were based upon the report of the senate Investigating Committee. Upon those charges the Governor was asked to re more Gen. Lathrop. The General filed an an-awer denying the charges specifically and generally. The Governor appointed A. R. Brown of Watertown as a special commissioner to invertigate the charges and report his findings. The report of Commissioner Brown was filed with the Governor in June last, and the decision of the Governor is based upon that re-

nort.

Accompanying his decision the Governor Accompanying his decision of 12,000 words, in which he reviews each of the thirteen specifications and the whole case in detail. In summing up the covernor says:

I am not willing to overhule the Superintendents indement and remove him from office because he does not take the same view of the conduct of the Wardens which is entertuined by some other persons. Something must still be intelligible in the ference with it unless it clearly appears that he is trying to shield official missipative or manifests a lack of comprehensive of the resonabilities of supervision the labor of convicts have received serious and extended regislative and other public attention, resulting in numerous and important statutory changes, and also an amendment to the Constitution abolishing the contract system of labor in prisons. During his incumbency the prisons have been the sub ect of frequent legislative and other official scrutiny and examination, and except the charges set forth in the petition in this proceeding. I am not aware of any complaint against his administration. While this circumstance alone could not be deemed sufficient to exculpate an officer who is actually guilty of an offence, nevertheless a long and satisfactory service at the head of agreat department should have some weight in determining the question of his removal, especially where the complaint only involves the omission of sufficient supervision of details rather than any direct malfeasance of the officer himself. Whatever delinquencies may have occurred at either of the prisons, it is not claimed that the Superint-indent derived any personal profit or benefit from any of them, or that he was concerned in or had knowledge of irregularities. I cannot commend all of the transactions which have been the subject of investigation in this proceeding, nor, on the other hand, do I feet called upon to transactions which have been the subject of investigation in this proceeding, nor, on the other hand, do I feel called upon to delares affirmatively that any subordinate officer should be removed, but I think enough has been shown to warrant the people of the State in expecting the most thorough watchfulness hereafter in the administration of prison affairs. In my opinion the facts disclosed are not sufficient to warrant the finding that the Sweeting the Sweeting the Sweeting that the Sweeting the Sweeting that the Sweeting that the Sweeting the cient to warrant the finding that the Superin-tendent has been guilty of negligence or mis-conduct which would justify his removal, and the charges are therefore dismissed."

MISSIONARIES OR TOUTS?

Complaint to Judge Cowing of Lawyere

Judge Cowing assigned H. Digby Johnston to defend two men who were arraigned in the General Sessions yesterday for attempted grand largeny. Mr. Johnston talked with the two defendants a moment and then jumped to his feet

and said to Judge Cowing:

Your Honor, I want to call your attention to the practices of many of the missionaries at the Tombs. Mrs. Clark, one of the Tombs missionaries, visited these two men in prison and said aries, visited these two men in prison and said ashe would obtain counsel for them. A lawyer named Coleman called on them, and they supposed he would be here to defend them, but as they nad no money to pay a retainer, he hasn't appeared. Such actions as this are enough to make honorable memoers of the profession disgusted with the criminal har. Like Mr. Chanler, Fil also retire if they are not stopped. The Tombs missionaries, or at least a number of them, are nothing but agents of a certain class of lawyers. By a peculiar coincidence one of my cilents was visited by this same missionary in the Tombs not long ago, and she tried to get my cilent to engage the same lawyer who should have appeared in this case. Another time, when I went to see a client conflined in the Tombs, I found that the cards of twenty-three different lawyers had been sent to him."

"The practice has never been brought to my attention before," said Judge Cowing.
"It crists," said Lawyer Johnston, "and I once called Judge Neuberger's attention to it."

"The Warden of the Tombs is the man who can remedy the evil," said Judge Cowing.
Mr. Johnston said he would complain to him. Then he proceeded with his case and got his two clients acquitted she would obtain counsel for them. A lawyer

Announcements were made by various banking houses to-day that they had engaged in London and in Paris a total of \$3,500,000 gold for shipment to this country by to-morrow's steamers. This makes a total of \$4,250,000 in transit, and brings the total import movement of gold up to \$53,250,000. In that total are included receipts at Boston and San Francisco and consignments in transit to those ports. The latest importations of gold from abroad are being made upon a little different basis than previous ones. The rates for sight sterling at this centre hardly warrant importations of gold, but those operations are made possible and profitable by the premium of 'sab's of 1 p cent that the gold commands? As approach is made to election day a desire to actually possess gold coin seems to have sprung up all over the

country, and it is to supply that demand that gold is being brought from London and the Continent. Some bankers are of the opinion

that a good many millions may be imported

The unexpected resumption of imports of gold upon a large scale promptly wrought a change in speculative sentiment that resulted in a general improvement in prices on the Stock Exchange. The rally, however, was short lived, because, after the traders had covered their shorts the demand for stocks practically disappeared. After a period of dulness at midday, the professional element began to sell stocks and demonstrated that the market enjoyed very little support. Sugar Refining was foremost in the decline, sustaining a net loss of nearly 2 points. The mar-ket for it was influenced by a further reduction of one-eighth of a cent per pound in the price of refined sugars, making a total reduction of Sc. in less than two weeks and also by reports of increasing competition in the shape of projected refineries and large importations of German refined sugars. Moreover,

this is the dull season in the trade, and efforts

are doubtless being made to depress prices

generally incidental to the marketing of the Louisiana sugar crop. The Granger shares, Reading, and Manhattan Railway practically constituted the remainder of the market. All except the last closed quite a little lower than yesterday. Manhattan Railway enjoyed an advance of 21% points in the early dealings, which was practically wiped out in the late trading. Reports were current that recent efforts to effect an alliance between the company and the Metropolitan Traction Company have been abandoned or will not be continued for the present. A further decline in the price of silver was a feature of the day. Although 410,000 ounces of silver will be shipped

Sterling exchange was weak, with a further shading in rates. The demand was light, while the supply of commercial bills was fair. Continental exchange was dull and weak. Actual rates are: Long bills, \$4.8146(\$4.815); sight drafts, \$4.835(\$3.84.814); and cable transfers, \$4.845 \$4.844.
